The Science of Raja Yoga is also referred to as The Kingly science of the Soul. Through the practice of Raja Yoga, control of the mind is brought about. The mind will be known as the instrument of the soul and the means whereby the brain of the aspirant becomes illuminated and knowledge gained of those matters which concern the realm of the soul. Techniques of mind over matter, lower mind versus higher mind, intuition and the building of the Anthakarana or the Rainbow Bridge will be studied in depth and exercises practiced to create the connecting thread between the form-centered personality, the Monad and the stages towards spiritual achievement and soul fusion eventually leading to illumination. This workshop calls for advanced students of the Ageless wisdom according to the Secret Doctrines. Participants should have practice and be familiar with meditation techniques.
